## **Aims and Objectives**

**The purpose** of Oakwood Surgery is to provide safe, high quality care and services with the best outcomes, taking into account patient needs.

These regulated activities will be delivered to the whole population within the local community. They will be integrated with other local health and social care services when appropriate.

Holistic patient focused care will be delivered in an innovative way that puts patient choice and safety first.

Staff's contact with patients, their families and each other shall be conducted with courtesy, professionalism, integrity, openness and respect.

Oakwood surgery provide a range of health care services to the whole population which include surgical procedures, treatment of disease and disorder or injury. Service types are delivered according to local community needs.

These services are delivered from both our locations (Oakwood Surgery & College Road Surgery). Oakwood Surgery have just taken over College Road Surgery as a branch practice. Its aim is to deliver excellent patient care in line with current requirements and to ensure the same standards are met at both sites within its entity.

We aim to provide high quality, safe, professional Primary Health Care General Practice services to our patients. We focus on;

- prevention of disease by promoting health and wellbeing and offering care and advice to our patients
- we work in partnership with our patients, their families and carers towards a positive experience and understanding, involving them in decision making about their treatment and care.
- We are a learning practice that continually improves what we are able to offer patients.
- We treat patients as individuals and with the same respect we would want for ourselves or a member of our families, listening and supporting people to express their needs and wants and enabling people to maintain the maximum possible level of independence, choice and control.
- We work in partnership with other agencies to tackle the causes of, as well as provide the treatment for ill health and where appropriate involve other professionals in the care of our patients.
- We encourage our patients to communicate with us by joining our Patient Forum, talking to us, participating in surveys, and feeding back and on the services that we offer

- We ensure all staff have the competency and motivation to deliver the required standards of care ensuring that all members of the team have the right skills and training to carry out their duties competently
- We take care of our staff offering them support to do their jobs and to protect them against abuse
- We have a zero tolerance of all forms of abuse.
- We provide our patients and staff with an environment which is safe and friendly
- We operate on a financially sound basis.

All services are delivered by appropriately trained and UK registered medical, nursing and allied health professional staff supported by a team of non-clinical staff covering administration, clerical, cleaning, facilities and materials management.

Services are delivered in an environment that is fit for purpose, and models of care that are evidence based and capable of being monitored and evaluated.

Oakwood Surgery remains responsible for monitoring the quality assurance and related governance of the service provided by Oakwood Surgery. This monitoring is provided at the site as part of the local governance review.
